#### INDEPENDENT AUDITORS' REPORT

The Board of Education Latta Independent School District I-24 Latta, Oklahoma

#### **Report on the Financial Statements**

We have audited the accompanying combined fund type and account group financial statements-regulatory basis of the Latta School District I-24, Latta, Oklahoma (District), as of and for the year ended June 30, 2013, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with financial reporting provisions of the Oklahoma State Department of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As discussed in Note 1, the financial statements are prepared by the Latta School District Number I-24 on the basis of the financial reporting provisions of the Oklahoma State Department of Education, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Oklahoma State Department of Education. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the Unites States of America, although not reasonably determined, are presumed to be material.

## Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Latta School District Number I-24, Latta, Oklahoma as of June 30, 2013, the changes in its financial position, or, where applicable, its cash flows for the year then ended.

## Basis for Qualified Opinion on Regulatory Basis of Accounting

The financial statements referred to above do not include the general fixed asset account group, which is a departure from the regulatory basis of accounting prescribed in the Oklahoma State Department of Education. The amount that should be recorded in the general fixed asset account group is not known.

#### **Qualified Opinion on Regulatory Basis of Accounting**

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the assets, liabilities, and fund balances arising from regulatory basis transactions of each fund type and account group of Latta School District Number I-24, Latta, Oklahoma, as of June 30, 2013, and the revenues collected and expenditures paid and encumbered for the year then ended on the regulatory basis of accounting described in Note 1.

#### **Other Matters**

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements-regulatory basis, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the basic financial statements.

Latta Independent School District I-24 Latta, Oklahoma

The combining financial statements-regulatory basis and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements-regulatory basis and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated August 21, 2013 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Notes to Financial Statements June 30, 2013

#### Note 1. Summary of Significant Accounting Policies

The financial statements of the Latta Public Schools Independent District No. I-24 (the "District") have been prepared in conformity with another comprehensive basis of accounting prescribed or permitted by Oklahoma Department of Education. The more significant of the District's accounting policies are described below.

#### A. Reporting Entity

The District is a corporate body for public purposes created under Title 70 of the Oklahoma Statutes and accordingly is a separate entity for operating and financial reporting purposes. The District is part of the public school system of Oklahoma under the general direction and control of the State Board of Education and is financially dependent on State of Oklahoma support. The general operating authority for the public school system is the Oklahoma School Code contained in Title 70, Oklahoma Statutes.

The governing body of the District is the Board of Education composed of elected members. The appointed Superintendent is the executive officer of the District.

In evaluating how to define the district, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The basis -- but not the only -criterion for including a potential component unit in the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involved considering whether the activity benefits the District and/or its citizens, or whether the activity is conducted within the geographic boundaries of the District and is generally available to its patrons. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there are no potential component units included in the District's reporting entity.

Notes to Financial Statements June 30, 2013

#### Note 1. Summary of Significant Accounting Policies (continued)

#### B. Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain district functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: Governmental, Proprietary and Fiduciary. Each category, in turn, is divided into separate "fund types."

### **Governmental Fund Types**

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term debt (debt service funds).

**General Fund** - The general fund is used to account for all financial transactions except those required to be accounted for in another fund. Major revenue sources include state and local property taxes and state funding under the Foundation and Incentive Aid Program. Expenditures include all costs associated with the daily operations of the schools except for programs funded for building repairs and maintenance, school construction and debt service on bonds and other long-term debt. The general fund includes federal and state restricted monies that must be expended for specific programs.

**Special Revenue Fund** - The special revenue fund of the District consists of the Building Fund.

Building Fund - The Building Fund consists of monies derived from property taxes levied for the purpose of constructing, remodeling, or repairing buildings and for purchasing furniture and equipment.

Notes to Financial Statements
June 30, 2013

## Note 1. Summary of Significant Accounting Policies (continued)

#### **B. Fund Accounting (continued)**

**Debt Service Fund** - Debt Service fund is the District's Sinking Fund and is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest and related costs. The primary revenue sources are local property taxes levied specifically for debt service and interest earning from temporary investments.

**Capital Projects Fund** - The Capital Projects Fund is the District's Bond Fund and is used to account for the proceeds of bond sales to be used exclusively for acquiring school sites, constructing and equipping new school facilities, renovating existing facilities, and acquiring transportation equipment.

#### **Proprietary Fund Types**

Proprietary Funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (Enterprise Funds) or to other departments or agencies primarily within the District (internal service fund).

#### **Fiduciary Fund Types**

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District. When these assets are held under the terms of a formal trust agreement, either a nonexpendable trust fund or an expendable trust fund is used. The terms "nonexpendable" and "expendable" refer to whether or not the District is under an obligation to maintain the trust principle. Agency funds generally are used to account for assets that the District holds on behalf of others as their agent and do not involve measurement of results of operations.

Agency Fund - The Agency Fund is the Schools Athletic and Activities Fund which is used to account for monies collected principally through fundraising efforts and athletic events of the students and District-sponsored groups. The administration is responsible, under the authority of the Board, for collecting, disbursing and accounting for these activity funds.

#### **Account Groups**

Account groups are not funds and consist of a self-balancing set of accounts used only to establish accounting control over long-term debt and general fixed assets not accounted for in proprietary funds.

Notes to Financial Statements June 30, 2013

# Note 1. Summary of Significant Accounting Policies (continued)

#### **B. Fund Accounting (continued)**

**General Long-Term Debt Account Group** - This account group was established to account for all long-term debt of the District, which is offset by the amount available in the debt-service fund and the amount to be provided in future years to complete retirement of the debt principal.

**General Fixed Asset Account Group** - This account group is used to account for property, plant and equipment of the school district.

#### **Memorandum Only - Total Column**

The total column on the combined financial statements is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Data in this column does not present financial position, results of operations or cash flows in conformity with accounting principles generally accepted in the United States of America. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

#### C. Basis of Accounting

The District prepares its basic financial statements in a presentation format that is prescribed by the Oklahoma State Department of Education. This format is essentially the generally accepted form of presentation used by state and local governments prior to the effective date of GASB Statement No. 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*. This format significantly differs from that required by GASB 34.

The basic financial statements are essentially prepared on a basis of cash receipts and disbursements modified as required by the regulations of the Oklahoma State Department of Education (OSDE) as follows:

- Encumbrances represented by purchase orders, contracts, and other commitments for the expenditure of monies and are recorded as expenditures when approved.
- Investments are recorded as assets when purchased.
- Warrants payable are recorded as liabilities when issued.
- Long-term debt is recorded when incurred.

Notes to Financial Statements June 30, 2013

#### Note 1. Summary of Significant Accounting Policies (continued)

#### C. Basis of Accounting (continued)

This regulatory basis of accounting differs from accounting principles generally accepted in the United States of America, which require revenues to be recognized when they become available and measurable, or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred for governmental fund types; and, when revenues are earned and liabilities are incurred for proprietary fund types and trust funds.

#### D. Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts.

#### E. Budgets and Budgetary Accounting

The District is required by state law to prepare an annual budget.

On February 13, 2001, voters of the school district voted to make all current support levies permanent.

A budget is legally adopted by the Board of Education for the General Fund and Special Revenue Fund that includes revenues and expenditures.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting -- under which purchase orders and other commitments of resources are recorded as expenditures of the applicable fund -- is utilized in all governmental funds of the District.

Notes to Financial Statements June 30, 2013

## Note 1. Summary of Significant Accounting Policies (continued)

### F. Assets, Liabilities and Fund Equity

**Cash and Cash Equivalents** - For purposes of the statement of cash flows, the District considers all cash on hand, demand deposits and highly liquid investments, with an original maturity of three months or less when purchased, to be cash and cash equivalents.

**Investments** - Investments consist of the purchase of Certificates of Deposit. All investments are recorded at cost.

**Inventories** - The value of consumable inventories at June 30, 2013 is not material to the financial statements.

**Fixed Assets and Property, Plant and Equipment** - The General Fixed Assets Account Group is not presented.

**Compensated Absences** - The school does not calculate a dollar value of compensated absences. The amount is paid each year to the employees.

**Long-Term Debt** - Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year.

**Due to Activity Groups** - Due to Activity groups represent the funds received from school related groups and organizations over which the board of education exercises control. These funds are credited to the account maintained by the District for the benefit of the group or organization.

**Reserved for Debt Service** - The balance of the sinking fund is restricted by Oklahoma statutes to be used only for paying of the principal and interest on bonds and judgments (to the extent of all outstanding obligations of the District).

**Cash Fund Balance** - Cash fund balance represents the funds not encumbered by purchase order, legal contracts, and outstanding warrants.

#### G. Revenue, Expenses and Expenditures

**Local Sources** - Revenues from local sources is the money generated from within the District's boundaries. It includes ad valorem tax, interest income, tuition, fees, rentals, disposals, commissions and reimbursements.

Notes to Financial Statements June 30, 2013

### Note 1. Summary of Significant Accounting Policies (continued)

#### G. Revenue, Expenses and Expenditures (continued)

**Intermediate Sources** - Revenues from intermediate sources are monies collected by an intermediate administrative unit (i.e. county government) between the District and the state levels, and distributed to the District in amounts that are different than the proportion collected within the District's boundaries.

**State Sources** - Revenues from state sources for current operations are primarily governed by the state aid formula under the provisions of Article XVIII, Title 70, Oklahoma Statutes. The State Board of Education administers the allocation of state aid funds to school districts based on information accumulated from the districts.

After review and verification of reports and supporting documentation, the State Department of Education may adjust subsequent fiscal period allocations of money for prior year errors disclosed by review. Normally, such adjustments are treated as reductions or additions of revenue of the year when the adjustment is made.

The District receives revenues from the state to administer certain categorical educational programs. State Board of Education rules require that revenue ear-marked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical programs. The State Department of Education requires that categorical educational program revenue be accounted for in the general fund.

**Federal Sources** - Revenues from federal sources are monies received from the federal government in the form of grants or entitlements (either directly or passed through another entity). A grant is monies received which must be spent for a specific purpose or activity. An entitlement is an amount given to the District based upon an allocation formula.

**Instruction Expenditures** - Instruction expenditures include the activities dealing directly with the interaction between teachers and students.

**Support Services Expenditures** - Support services expenditures provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction.

**Operation of Non-Instructional Services Expenditures** - This expenditures category consists of activities which provide non-instructional services to students, staff or the community.

Notes to Financial Statements June 30, 2013

## Note 1. Summary of Significant Accounting Policies (continued)

#### G. Revenue, Expenses and Expenditures (continued)

**Capital Outlays** - This expenditure category consists of activities involved with the acquisition of land and buildings; remodeling buildings; the construction of buildings and additions to buildings; initial installation or extension of service systems and other built-in equipment; and improvements to sites.

**Other Outlays** - This category is for items not properly classified as expenditures, but which still require budgetary or accounting control.

**Interfund Transactions** - Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund or expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the fund that is reimbursed.

#### H. Statement of Cash Flows

Since the District does not currently have any Proprietary Fund Types, the statement of cash flows has not been presented in the fiscal 2013 accompanying financial statements.

#### I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during that reporting period. Actual results could differ from those estimates.

#### Note 2. Property Taxes

The District's ad valorem property tax is levied each October 1 on the assessed value listed for all real, business personal and public service property located in the District. The assessed value of the certified roll, upon which the levy for the 2013 fiscal year was based, was \$18,644,476.

Notes to Financial Statements June 30, 2013

#### Note 2. Property Taxes (continued)

Ad valorem tax rates and collections for the year ended June 30, 2013 are as follows:

	Current Mills Levied		urrent Year Sollections	Percent Collected of Taxes Levied
General Fund Building Fund Sinking Fund	36.04 5.15 21.90	\$	646,268 92,350 392,710	96.2% 96.2% 96.2%
Totals	63.09	\$	1,131,328	
Collection of prior year ad valorem	taxes are as fo	llows:		
General Fund Building Fund Sinking Fund		\$	30,061 4,296 16,800	
Total		\$	51,157	

On February 13, 2001, voters of the school district voted to make all current support levies permanent.

#### Note 3. Cash and Investments

The District's investment policies are governed by state statute. Permissible investments include direct obligations of the United States Government and Agencies; certificate of deposit of savings and loan associations, and bank and trust companies; and savings accounts or savings certificates of savings and loan associations, and trust companies; Collateral is required for demand deposits and certificates of deposit for all amounts not covered by federal deposit insurance.

In accordance with State Statutes, the district's investment policy is as follows:

The treasurer shall invest the following funds in direct obligations of the United States government; in certificates of deposit of banks secured by acceptable collateral, or in savings accounts or savings certificates of savings and loan associations. All deposits shall be insured by the Federal Deposit Insurance Corporation (FDIC), Federal Savings and Loan Insurance Corporation (FSLIC), or the National Credit Union Administration (NCUA):

Notes to Financial Statements June 30, 2013

#### Note 3. Cash and Investments (continued)

- 1. Reserve funds from the general fund.
- 2. Funds from the building fund.
- 3 Reserve funds in the sinking fund.
- 4. To determine that school funds are properly secured, the treasurer shall, on March 31, June 30, September 30, and December 31, obtain from each bank where funds are deposited a listing of collateral pledged, setting forth the par value and market value of such collateral.

Said funds are to be invested monthly in accordance with all applicable state and school laws.

Credit Risk is the risk that an issuer or other counter part to an investment will not fulfill its obligation. Generally, the school's investments are managed under the custody of the school's treasurer. Investing is performed in accordance with the school's investment policy as described above. As of June 30, 2013 the school's investments were deposited in local banks in bank accounts and certificates of deposits. These deposits are in one bank and are entirely insured by the FDIC up to its limits, with the individual bank pledging securities for the deposits in excess of the FDIC limits. As such at June 30, 2013 the school was not subject to custodial credit risk. However, the school is subject to concentration of Credit Risk since both banks have deposits in excess of five percent of the school's total investments.

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods of time are subject to increased risk of adverse interest rate changes. The School's policy provides that to the extent practicable, investments are matched with anticipated cash flows. The school's investments are held in bank accounts and certificates of deposits which are short term to minimize Interest Rate Risk to as low of level as possible.

Notes to Financial Statements June 30, 2013

## Note 3. Cash and Investments (continued)

The District's deposits and investments are in various financial institution as follows:

	Bank Balance	Pledged Collateral	FDIC Insurance
Citizen's Bank – Ada, OK	\$ 2,958,550	\$ 3,292,318	250,000
	\$ 2,958,550	\$ 3,292,318	

# Note 4. General Long-Term Debt

State statutes prohibit the District from becoming indebted in an amount exceeding the revenue to be received for any fiscal year without the approval by the District voters. Bond issues have been approved by the voters and issued by the District for various capital improvements. These bonds are required to be fully paid serially within 10 years from the date of issue. Debt service requirements for bonds are payable solely from fund balance and future revenues of the debt service fund.

The following is a summary of the long-term debt transactions of the District for the year ended June 30, 2013.

		Balance		Issued	Balance

Notes to Financial Statements June 30, 2013

#### Note 5. Employee Retirement System

#### Description of Plan

The District participates in the state-administered Oklahoma Teachers' Retirement System, which is a cost sharing, multiple-employer defined benefit public employee retirement system (PERS), which is administered by the Board of Trustees of the Oklahoma Teachers' Retirement System (the "System"). The System provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Title 70 Section 17 of the Oklahoma Statutes establishes benefit provisions and may be amended only through legislative action. The Oklahoma Teachers' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Oklahoma Teachers' Retirement System, P.O. Box 53624, Oklahoma City, OK, 73152 or by calling 405-521-2387.

## **Basis of Accounting**

The System's financial statements are prepared using the cash basis of accounting, except for accruals of interest income. Plan member contributions are recognized in the period in which the contributions are made. Benefits and refunds are recognized when paid.

The pension benefit obligation is a standardized disclosure measure of the present value of pension benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee services performed to date and is adjusted for the effect of projected salary increases. There are no actuarial valuations performed on individual school districts. The system has an under-funded pension benefit obligation as determined as part of the latest actuarial valuation.

#### **Funding Policy**

The District, the State of Oklahoma, and the participating employee make contributions. The contribution rates for the District and its employees are established by and may be amended by Oklahoma Statutes. The rates are not actuarially determined. The rates are applied to employee's earnings plus employer-paid fringe benefits. The required contribution for the participating members is 7.0% of compensation. Additionally, OTRS receives "federal matching contributions" for positions whose funding comes from federal sources or certain grants. The District and State are required to contribute 14.0% of applicable compensation. Contributions received by the System from the State of Oklahoma are from 3.54% of its revenues from sales tax use taxes, corporate income taxes and individual income taxes. The District contributed 9.5% and the State of Oklahoma, plus the federal contribution contributed the remaining 4.5% during this year. The District is allowed by the Oklahoma Teachers' Retirement System to make the required contributions on behalf of the participating members. The school is required to pay 16.5% for any compensated retired teachers already receiving retirement benefits.

Notes to Financial Statements June 30, 2013

#### Note 5. Employee Retirement System (continued)

#### **Annual Pension Cost**

The District's total contributions for 2013, 2012, and 2011 were \$309,637 \$295,413 and \$293,122 respectfully.

#### Note 6. Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

#### Note 7. Subsequent Events

Management has evaluated subsequent events through August 21, 2013 which is the date the financial statements were available to be issued and have determined that no additional information needs to be added to the financial statements.

#### Note 8 Risk Management

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets, errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

#### Note 9. Surety Bonds

The treasurer is bonded by Western Surety Company, for the sum of \$2,000,000.

The minute/encumbrance clerk is bonded by Western Surety Company, bond number 70856236 for the sum of \$100,000.

The superintendent is bonded by Western Surety Company for the sum of \$100,000.

The deputy minutes clerk is bonded by Western Surety Company for the sum of \$100,000.

The assistant high school/junior high principal is bonded by Western Surety Company for the sum of \$100,000.

The activity custodian is bonded by Western Surety Company for the sum of \$100,000.

REPORTING AND ON COMP	PLIANCE AND OTHER MAT	ONTROL OVER FINANCIAL TERS BASED ON AN AUDIT DANCE WITH GOVERNMENT

### INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Education Latta School District Number I-24 Latta, Oklahoma

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, Issued by the Comptroller General of the United States, the accompanying fund type and account group financial statements-regulatory basis within the combined financial statements of the Latta School District Number I-24, Latta, Oklahoma(District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated August 21, 2013, which was adverse with respect to the presentation of the financial statements in conformity with accounting principles generally accepted in the United States because the presentation followed the regulatory basis of accounting for Oklahoma school districts and did not conform to the presentation requirements of the Governmental Accounting Standards Board. However, our report was qualified for the omission of the general fixed asset account group with respect to the presentation of the financial statements on the regulatory basis of accounting authorized by the Oklahoma State Board of Education.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's Internal control over financial reporting (Internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's Internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The Board of Education Latta School District Number I-24 Latta, Oklahoma

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control, or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Johnston & Bryans

Ada, Oklahoma August 21, 2013 INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

The Board of Education Latta School District Number I-24 Latta, Oklahoma

#### Report on Compliance for Each Major Federal Program

We have audited the Latta School District Number I-24, Latta, Oklahoma (District)'s compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2013. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*; issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Latta School District Number I-24, Latta, Oklahoma, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

The Board of Education Latta School District No. I-24 Ada, Oklahoma

#### **Report on Internal Control Over Compliance**

Management of Latta School District Number I-24, Latta, Oklahoma (the District), is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or defected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
